

CNC MILLING

Milling Capabilities

Our CNC milling department handles simple and complex parts with consistent, accurate results.

- 3-axis and 4-axis machining
- High-speed spindle capability
- Multi-tool changers
- CAD/CAM-driven programming
- Small to medium component sizes
- Aluminium, steels, stainless, brass, plastics and more

Typical Work

- Housings
- Brackets and mounts
- Film-industry components

- Motorsport parts
- Specialist small-batch work
- Fixtures and assemblies
